

## About Transition Technologies PSC

### Experts in digital transformation.

Transition Technologies PSC is an expert in digital transformation, on a mission to accompany their customers as a trusted Global Premium Solutions Integrator and make their vision a reality together. Transition Technologies PSC is not just embracing digital transformation; they are catalysts of innovation and progress through sustainable technologies.

Their track record proudly boasts over 1200 successful projects around the globe, demonstrating their commitment to the idea of constant technological development. They are experienced specialists in a spectrum of cutting-edge technologies, including IoT, Cloud, Augmented Reality, AI, PLM, and more. They are at the forefront of technological evolution, not merely as observers but as active contributors and innovators. They believe the future is green, and so are their brand new solutions.

TT PSC serves customers in various sectors, including Automotive, Machinery & Heavy Equipment, Energy, Media & Telecom, Consumer goods, Healthcare & Life Sciences, Software & Technology, Commercial & Prof. Services. They tailor their solutions to the unique needs of each industry, ensuring they thrive in the digital era.

They take pride in their long-term partnerships with industry giants like AWS, Microsoft, Google, PTC, Rockwell Automation, Atlassian, Ansys, BMC and RealWear. They actively contribute to their partners' strategies and business plans by empowering them with state-of-the-art technologies and innovative solutions.

TT PSC is a member of the Transition Technologies Group (TT) - a leading IT software and services provider in Poland. With over three decades of experience, TT is providing the world's highest levels of technology solutions and services to customers.
